Rules for withdraws

1. Multi Signature 5 out of 7 signers
2. Owners wallet is the only wallet that can do the transaction
3. Needs to be a 8 hour hold on all transactions , just in case there is a fraudulent one so we can stop it before it goes out
4. There should be a cap on transaction amounts .. for instance
   a. If there is a transaction for a million dollars it should be sent first a small amount , then a larger amount , then the total amount. To verify that the transaction is successful
5. Needs to be a admin panel to control the contract.
   a. Login via wallet signing
